Contact No:- 7498574482

CAREER OBJECTIVE

Highly motivated and analytical B.Tech Computer Science Engineering student with strong programming, problem-solving, and AI skills with strong foundations in programming, data structures, and problem-solving. Passionate about software development and data-driven systems. Seeking an internship opportunity at Bosch to apply technical skills, contribute to real-world projects, and gain industry experience.

[Possessing over 2 years of finance domain experience in income Tax filing and client management] .

CORE COMPETENCIES

- AI- Powered Predictive Modeling- Data Mining and Analysis
- Income Tax Refund Filing & Compliance (Indian Regimes)
- Data Reporting & Performance Metrics
- Process Optimization & Automation
- Analytical Thinking & Communication Skills

EXPERIENCE

Independent Financial Analyst & Tax Consultant

2023 – Present | Income Tax Filing & Financial Documentation

- Filed and managed Income Tax Returns (ITR) for clients across India under various Indian Tax Regimes.
- Handled documentation, verification, and submission for refunds ensuring 100% accuracy and compliance.
- Built trust with a wide client base, securing multiple satisfied and recurring clients.

- Developed excellent communication and confidence through client interactions and advisory discussions.

Summer Intern(2025) - YOJAK NGO, Nigdi

May 2025 - July 2025 | Data & Documentation Intern

- Collected and analyzed student scholarship data for Bajaj Foundation ensuring precision and consistency.
- Automated reporting and attendance systems using Excel logic and data validation tools.
- Created trend-based reports that improved workflow transparency and efficiency.
- Collaborated with coordinators to refine the documentation process for better decision-making.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science Engineering

DY Patil International University, Akurdi, Pune | Pursuing (2nd Year, 2024- 2028)

Relevant Coursework & Certifications:

- AI & Data Analytics (Project-based learning)
- Courses: Database Management Systems, Machine Learning, Software Engineering

- 10TH CBSE :- 86%

- 12% HSC :- 76%

- MHT-CET Entrance Exam :- 92% (Percentile)

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, SQL

Data Tools: Excel, Google Sheets, Power BI (Basic), Pandas, NumPy

AI & ML Concepts: Predictive Analytics, Data Preprocessing, Model Evaluation

Finance Tools: ITR e- Filing Portal, Tax Software, TDS/26AS Data Analysis

Tools & Platforms: GitHub, VS Code, Jupyter Notebook

Operating Systems: Windows, Linux

Coursera Certifications

1. Certified by Google in course – Foundations of Data
2. Certified by University of Rochester – in Technology and Commercialization
3. Certified by University of Michigan in - Data Mining In Python

PROJECT HIGHLIGHT

AI- Powered Attendance Trend Analyzer (Academic Project)

- Built a smart model to analyze multi- year attendance datasets and generate automated performance trends.
- Combined Python data logic with Excel automation for real- time insight generation.
- Advanced Tax Management System

Developed a structured system to manage Income Tax Return (ITR) data, client records, and financial documentation

Implemented data validation, error checking, and automated calculations for tax processing

Improved efficiency in handling multiple client records and compliance workflows

Designed with a focus on accuracy, data organization, and real- world usability

AI- Based Attendance Trend Analyzer

Built a system to analyze multi- year student attendance data using Python and Excel automation

Used NumPy and Pandas for data preprocessing and trend analysis

Generated automated performance insights for improved academic tracking

Student Data Management System

Developed using C/C++ to manage student records

Implemented CRUD operations (Insert, Delete, Search, Update)

AI Guessing Chatbot (Akinator- style Game)

Developed an intelligent guessing game inspired by Akinator, capable of predicting user-selected characters through a series of adaptive questions.

Implemented a rule- based decision system and basic machine learning logic to refine guesses based on user responses.

Designed conversational flow for interactive chatbot experience using structured questioning techniques.

Learned the importance of data collection, training datasets, and decision trees in improving prediction accuracy.

Focused on optimizing user engagement and response handling for better interaction quality.

Stickman Kingdom Clash (AI- Assisted Game Development)

Designed and developed a 2D strategy- based game using AI- assisted tools for faster development and prototyping.

Created gameplay mechanics including character movement, combat logic, and scoring systems.

Utilized AI tools to generate assets, improve logic building, and accelerate coding workflows.

Implemented basic game physics and user interaction controls.

Gained hands- on experience in game design principles, AI- assisted coding, and rapid development techniques.

Smart LendRoom – Lending Management System

Built a smart lending system to manage borrowing and lending operations efficiently.

Designed features for user registration, transaction tracking, loan management, and record maintenance.

Structured database logic to handle user data and financial records securely.
Focused on creating a user- friendly interface for easy monitoring of lending activities.
Demonstrated understanding of system design, data management, and real- world problem solving.

ACHIEVEMENTS & STRENGTHS

- Recognized at YOJAK NGO for exceptional data accuracy and reporting clarity.
- Delivered successful Income Tax Filing Services with high client satisfaction and compliance accuracy.
- Skilled at remote communication and collaboration using modern productivity tools.
- Strong analytical and logical reasoning ability.
- Passionate about AI, finance, and quality data evaluation.

PERSONAL DETAILS

Languages Known: English, Hindi, Marathi

Work Preference: Remote, Office

Availability: Immediate

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge and belief.

A handwritten signature in black ink, appearing to read 'Krrish Suresh Pawar', with a stylized flourish at the end.
